

## **City Sewage Reuse Project of Asia Symbol Awarded Best CSR Case**

**10 December 2014**

On Dec 5, the excellent cases conference of China enterprises with foreign investment to fulfill the social responsibility held in Beijing jointly hosted by China Enterprises with Foreign Investment Association and *WTO Economy Guide*. City sewage reuse project of Asia Symbol was selected into *2014 Best CSR Case of FDI Enterprise in China*. Mr. Shi Guang Sheng, the former minister of Ministry of Foreign Trade and Economic and honorary president of China foreign Association attended the conference.

The case evaluation activity was selected from 47 enterprises with foreign investment of 56 good practice cases of social responsibility. 47 companies from 13 countries and regions, 20 enterprises belong to the world top 500.

Asia Symbol introduced Singaporean technology design, invested RMB 68.4 million to reuse and retreat sewage from Rizhao urban area, aiming to save water and reduce pollutant emission. The project put into production in middle December of 2013, water treatment designs of 40000 tons/d, which can save fresh water more than 10 million tons and provide 100,000 families of one year water consumption. The annual emission of chemical oxygen demand (COD) reduced 370 tons, ammonia nitrogen of 40 tons.

The project comply with the principles of sustainable development and conducive to achieve a virtuous circle of ecological environment. Reuse city sewage provides new method on broaden water resources, which can relief city water shortage efficiently using city sewage

as second-reusing resources. It is also one of the Rizhao key projects of practical for the citizens.
